Network of 328 progressive farmers in Shikoku

Operating an agricultural web portal "Shikoku IT Nouentai"

Supporting a traditional farming method "natural circulation farming".

Providing info of "agriproducts" by dedicated Farmers in Shikoku.

We can provide as-yet-unknown foodstuffs (Jam, syrup, fruit juice, dressing, tea, spirits, juice, Ponzu, retort food, sweets, and salt) processed from agriproducts that have been cultivated under rich soil and water, high-tech cultivation, and the traditional farming culture.

Selling reassuring and safe foodstuffs by farmers in Shikoku.

In Shikoku, there is a temperature difference between day and night, clean air and water. The foodstuffs in Shikoku are made from fruits and vegetables that have been grown in reduced pesticide and fertilizer in a kitchen garden. We will sell the reassuring and safe foodstuffs that is processed with a clean factory without additives.

Let's come to Shikoku for "a study tour of IT farming"! We can arrange the visit.

Please come to see a traditional culture, a natural circulation type high sloping land farming that have applied registration for world agricultural heritage and progressive farmers utilizing the ICT. Many delegations have come from abroad. Let us help you arranging visits.
